

# KITCHEN CABINET REFINISHING

Because everyone should love their kitchen.

# LOVE YOUR KITCHEN

With the amount of time that we spend in our kitchens, your kitchen cabinets need to be durable, and washable. They should also feel amazingly smooth.

We use only Top Quality Renner Lacquer to give you the kitchen that you will love.

# PROCESS

## STEP 01 REMOVAL AND PREP

At your house, we'll remove all the cabinet hardware, doors, and drawer fronts. These will be transported back to our shop to begin prepping them. We degrease, sand and do any repairs needed.

## STEP 02 LACQUER APPLICATION

Once everything at our shop is prepped, we will apply a bonding primer for ultimate adhesion to all sides of the doors. We then sand again, inspect for flaws, repair as needed, and then apply two coats of top-quality lacquer.

## STEP 03 IN HOUSE APPLICATION

We are back at your home and start with protecting your space by masking everything, tenting off the kitchen, and setting up a ventilation system. Once that is set up, we will begin the prep work in the same manner as the doors. Bonding primer, along with inspections for any repairs and top coat with Lacquer.

## STEP 04 REINSTALL DOORS

We will take down and dispose of all the masking and reinstall everything that was previously removed.

**By the end of the day, your kitchen will have a fresh new look that is durable, long lasting, smooth, and beautiful.**

# ANY COLOR

You want in your kitchen.

We will match any color that you find in our lacquer coating allowing you to have any color or combination of colors.

# LACQUER

**WE DON'T PAINT CABINETS - WE LACQUER THE HECK OUT OF THEM.**

When it comes to refinishing your kitchen cabinets, don't settle for something that will look alright. Our refinishing will allow you to have the kitchen in the color that you love and a beautiful smooth finish.

# WE FOCUS ON **3** THINGS

on every project.

## We Do Good Work.

You want to make sure that you hire a company that others have tried and tested. Our Google Reviews show that so many of our customers have loved working with us.

With over 20 years of painting, we promise you will love the look and feel of your home or workplace.

## We Communicate.

No one wants to be left in the dark when it comes to their own project. We promise to keep you posted on how things are progressing and when we will be wrapping things up.

The worst thing is waiting around for someone that is supposed to show up to do work.

We understand that you have things that you need to get done and we have painting that needs to get done.

We will show up every day until the project is done.

## We Show Up.

# WE ALL WANT OUR HOMES TO BE A PLACE THAT WE LOVE.

**The problem is** that our home may not feel welcoming due to outdated colors, dings in the walls, damaged cabinets, and wallpaper from 1985.

**For over 20 years, Painters Enterprise** has been helping clients like you create inviting and inspiring homes that you will absolutely love.

Painting goes beyond just changing the color of your walls or kitchen cabinets. It's about creating a better home for you and your family.

It's about changing the way you feel, the way you work, and the way you live.
